# ASU Taiwan Internship Program

## A fully-funded internship in Taiwan

**Spend this summer gaining work experience in Taiwan for your career in Arizona on a fully-funded internship.**

**Who:** Rising juniors and seniors, with at least a 3.0 GPA

**Credit:** Earn 6 credits in FSE 484; WPC 394 or LIA 484

Internship placements are available across a wide range of fields, including engineering, supply chain management, international business, communications and more. 55 students will be selected and the program will run for four years. Students will return to ASU with practical work experience, professional connections and a deeper understanding of Taiwan's role in Arizona's future.

**Priority Deadline: December 1, 2026**

# Semester Research Initiative

**SERI** is designed for highly motivated students seeking hands-on research experience at a top-tier research university. The program provides undergraduate (junior and senior) and master's students the opportunity to work closely with a Fulton Schools faculty mentor on a defined research project. Projects are available across a wide range of engineering disciplines.

Arizona State University

## Program overview

- Duration: 10–15 weeks
- Time is approximately 30 hours per week

*Fall or spring semester

## Program fees and inclusions

The program fee is $3,000 and includes:

- Online pre-departure orientation.
- In-person orientation upon arrival.
- Professional development workshops.
- Organized social and networking activities.

*Housing, transportation, and living expenses are not included in the program fee.

## Eligible applicants include

- U.S. citizens and permanent residents.
- ASU-sponsored F-1 and J-1 visa students.
- International applicants.

*Priority consideration will be given to students between their junior and senior years of undergraduate study and to master's students who are considering pursuing a doctoral degree.
